Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 2/5/2008 has been entered.

The following is a statement of reasons for the indication of allowable subject matter: there is no prior art or combination of prior art that discloses or suggest the limitations included in the independent claims including a MAC protocol for uplink and downlink channels where there are a first and a second number of selectable minislots. The first number of minislots contains a reservation request of a first type of data without contention and the second number of minislots contains a reservation request for a second type of data based on a contention algorithm.
